

Isaac Gamus

Full Stack Developer | Software Engineer

Edison, NJ | 347-403-3952 | isaacgamusdev@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

TECHNICAL SKILLS

React.js | Redux | Flask | SQLAlchemy | Express.js | Node.js | Sequelize | JavaScript | Python | SQL | HTML | CSS

PROJECTS

LearnFromMe, Full Stack Developer - React.js | Redux | Flask | SQLAlchemy

[Live](#) | [GitHub Repo](#)

eCommerce course marketplace in the style of Udemy

- Developed a full-stack marketplace app with cart functionality
- Managed product scope with mentors to scope functionality and deploy an MVP on-schedule
- Incorporated file uploads with AWS S3 to enable users to upload custom images and videos for their courses

ChairDevotee, Full Stack Developer - React.js | Redux | Express.js | Sequelize

[Live](#) | [GitHub Repo](#)

Chair rental hub in the style of Airbnb

- Built a SQL database with an API to store, update, and retrieve user data
- Wrote a React.js frontend that manages state with Redux to render data dynamically to the client

Sonic, Full Stack Developer - React.js | Flask | SQLAlchemy

[Live](#) | [GitHub Repo](#)

Chat room instant messaging app in the style of Discord

- Undertook the implementation of messaging and reaction functionality using websockets from the Socket.IO library to enable users to see live chat updates
- Collaborated with a team of remote engineers on a shared codebase to deploy a feature-rich project from scratch in one two-week sprint

EXPERIENCE

Support Engineer

Sept 2021- April 2022

Lido Inc.

- Leveraged external API docs and webhooks to create demos for proposed integrations with diverse, popular SaaS apps, leading to the creation of four unique functions for a spreadsheet app
- Updated registrations with external apps, including Hubspot, Intercom, Salesforce, Shopify, Stripe, and Quickbooks, to maintain smooth integration of clients' external data into our app
- Addressed various bugs to maintain app performance
